

Please join us at our
Corn Silage Prep Days

Come enjoy lunch at one or all of our locations and discuss your corn silage harvest prep with Ag Partners consultants.

Please cut 3-5 corn stalks from each field you want moisture analysis on at the chop height you plan to cut at.

- Lunch provided at all locations
- Whole Plant Corn Silage Moisture analysis
- Disease determination by forage agronomist
- Inoculant Information
- Silage Plastic Information
- Ag Partners Plot corn stalk samples
