

# Purina® Flock Raiser® Crumbles and Pellets

Mixed Flocks? Non-laying birds? Molting birds?

Purina® Flock Raiser® is the jack of all trades.

Available in two convenient feed forms, it provides the optimal combination of nutrients to keep birds healthy and thriving.

## Recommended for

- mixed flocks
- non-laying ducks and geese
- roosters and non-laying adult hens
- molting hens
- turkeys after 8 weeks
- meat birds

## 20% Protein

Increased protein supports quick growth, feather regrowth and flock maintenance.

## Essential Amino Acids

Enhanced with lysine and methionine to support muscle and skeletal development.

For more information, contact your local Purina retailer or visit [purinamills.com/chicken-feed](http://purinamills.com/chicken-feed).

## Prebiotics and probiotics

Support digestive and immune health.

## Available in crumbles and pellets

Crumbles should be fed to young and small birds but can be fed to the entire flock.

Pellets are recommended for birds that are large enough to consume whole pellets. They are also a great way to limit feed waste.

## FEEDING DIRECTIONS

Feed Purina® Flock Raiser® for at least 90 percent of the diet to meat birds, mixed flocks and roosters. If birds in the flock are laying eggs, supplement with Purina® Oyster Shell.

For hens in molt, switch to Purina® Flock Raiser® to provide added protein needed for feather regrowth. During molt, supplement with a dish of Purina® Oyster Shell to provide the calcium needed to return to egg production. Once hens start laying eggs again, transition back to a complete layer feed.

## GUARANTEED ANALYSIS

Crude Protein (Min) .....	20.00%	Calcium (Ca), (Max) .....	1.30%
Lysine (Min) .....	1.10%	Phosphorus (P), (Min) .....	0.60%
