

CORN SILAGE DRY DOWN DAYS

Bring your corn stalks to any of the locations listed on any, or all, of the dates scheduled. Please bring samples *between 10 am & 1 pm*.

Your Ag Partners representative will contact you with your specific results the following day.

CHECK YOUR 2022 CORN SILAGE MOISTURE WITH YOUR AG PARTNERS TEAM!

Pine Island Farm Store 417 N. Main Street Pine Island, MN	September 6
Stewartville Seed Shed 113 4th Street SE Stewartville, MN	September 6 & 13
Le Center 1273 W. Derrynane Street Le Center, MN	September 7
Goodhue Main Office 101 Broadway Avenue Goodhue, MN	September 7 & 14
Ellsworth Farm Store 290 N. Morse Street Ellsworth, WI	September 8 & 15
Lewiston Feed Warehouse 600 Debra Drive Lewiston, MN	September 8 & 15

Please cut 3-5 corn stalks at the chop height you plan to cut at, from each field you want moisture analysis. All samples will be brought to a local forage laboratory to determine moistures.

*Regional results will be e-mailed on September 9 and 16. If you do not receive Feed Mill Holiday Closure e-mails, check with your Ag Partners feed team to be added.
