

Corn Silage Dry Down Days

CHECK YOUR 2024 CORN SILAGE MOISTURE WITH YOUR AG PARTNERS TEAM!

It's moisture testing time! Bring your corn stalks to any of the locations listed on any, or all, of the dates scheduled. If you need moisture testing outside of these dates, you may call your agronomist or nutritionist any time. Agronomy: 651-923-6002; Feed: 651-923-6001

LEWISTON FARM STORE

[101 Broadway, Goodhue, MN](#) 

Thursday, September 5
Thursday, September 12

ELGIN AGRONOMY CENTER

[27594 County Road 25, Elgin, MN](#) 

Monday, September 9

-  Bring samples before 1pm on the day scheduled. Samples should be cut at the same height at which you plan to harvest. 4-5 stalks from each field to be sampled is best.
-  Regional analysis results will be e-mailed 1-2 days after each dry down day. Your Ag Partners rep will contact you the following day with specific field results.
