Weaning/Starter Guide

Grower/Backgrounding Program

(14-28 Days Pending Stress Level)

Hand/Bunk-Fed:

- 40/20 R400
(urea-based grain mix)
- 36-0 B500
(natural protein pellet)

Notes:

Both products can be fed at 0.75–1.25 lbs./head/day, adjust feeding depending upon body weight.

Recommended delivery is in a grain mix fed at 4–8 lbs./head/day.

Feed alongside free choice hay and or limit fed corn silage.

TMR:

- 40/20 R400
(urea-based grain mix)
- 36-0 B500
(natural protein pellet)
- Co-Pro balancer R700
(feed with distiller-based diets)

Notes:

Work with your consultant to formulate balanced TMR.

Self-Feeder:

- AR RANGE SUPP
R150 MEAL
(mix with cracked corn)
- 70 CC/30 AR, 60 CC/40 AR
(Adjust range supplement to limit grain mix intake to 1% of body weight)

Notes:

Offer palatable forage, grass mix and/or dry hay.

Optional to limit feed fermented, chopped forages or bailing.
