

CORN SILAGE BURN DOWN DAYS

IT'S MOISTURE TESTING TIME! Drop off corn stalk samples for silage moisture testing on any, or all of the dates listed. If you need moisture testing outside of these dates, you may call your Ag Partners agronomist or nutritionist directly any time for testing.

LEWISTON FARM STORE

Thursdays: **August 27**
September 3

ELLSWORTH FARM STORE

[290 North Morse Street, Ellsworth WI 54011](#)

Thursdays: **August 27**
September 3
September 10

-  Cut 4-5 sample stalks from each field to be tested.
-  Samples should be cut the same height at which you plan to harvest.
-  Cobs should have fully dented kernels with a milk line.
-  Bring samples before 1pm on the day scheduled.

Your Ag Partners rep will contact you the following day with your individual results.
